

I am Stephen Goff and I am a Staff Governor. I joined The Milford Academy in 2014 and have worked in KS2 during this time. Prior to this I worked as a Teaching Assistant in two different schools. Before working in education I was a financial advisor for 6 years. I am currently the Science Coordinator and Computing Coordinator for the school as well as taking the lead on First Aid.

I am passionate about education and children's welfare. I am committed to ensuring that The Milford Academy maintains its high standards and is a school that the Clifton Community can be proud of.
